TRANSITION FROM **MAXWELL TO JONAS** CONSTRUCTION SOFTWARE IN JUST

6 EASY STEPS

Jonas
Construction Software

PARTNER FOR LIFE

JONAS IMPORT WIZARD
ONE CLICK CONVERSION

One of the biggest challenges with transitioning to a different software package is getting your data out of your current system and into the new one. At Jonas, we take the worry out of transferring data from Maxwell MMS and American Contractor into Jonas. With our Jonas Import Wizard, we streamline the data conversion process and ensure your information is imported accurately and effectively. Within no time, your information will be ready to import into Jonas and you can focus on actually learning to use our fully integrated software solution rather than manually uploading data. We are committed to a quick, easy, and efficient transition process, and our import solution is another method for achieving this.

HOW DOES IT WORK?
SIMPLE.

The first step is to give us access to your database from your current software system. We then take the data and put it through our Jonas Import Wizard, which intelligently converts the information into Jonas-ready Excel spreadsheets. We send the spreadsheets back to you so that you have the ability to clean up any outdated information prior to importing it into Jonas. Once this process is completed, the data is ready to be imported into Jonas!

PARTNER FOR LIFE

Over 25 years ago, we made a **promise** called '**Software for Life**'. This is our commitment to never phase out any of our products and to continue to invest in improving them, so **you'll never have to implement a new system**. Jonas Construction Software is backed by Constellation Software Inc. (CSI), a global software company that acquires and builds high market share, mission-critical vertical market software companies.

WHY JONAS CONSTRUCTION SOFTWARE?

We have successfully transitioned numerous Maxwell clients who are now thriving with Jonas Construction Software. With our fully integrated and automated construction software solution, your business can streamline operations, enhance efficiencies, and improve processes. Our 6 easy steps to transition from Maxwell to Jonas will have your business up and running in 3 months or less!

6 EASY STEPS TO TRANSITION FROM MAXWELL TO JONAS

1 ONE CLICK CONVERSION

With Jonas, give us access to your database, and we'll run it through our Jonas Import Wizard, so that all of your information is ready to be validated and imported directly into Jonas!

2 QUICK INSTALL GUIDE

Fill out the Quick Install Guide, which includes questions about the Chart of accounts, Job Number, Job Breakdown, etc.

3 BUSINESS PROCESS REVIEW

We noticed Maxwell clients were limited to certain restrictions and unable to perform specific tasks in the software system. During our business process review, our implementation specialists will analyze your existing processes and examine what you want to accomplish with the software and what your processes actually look like. Our implementation specialists, each with over 10 years of experience, will also share their business best practices.

4 DEPLOYMENT - TEST COMPANY

The implementation specialist creates a 'test company' for you with your data from step 1, with information from the Quick Install Guide and the Business Process Review. The test company is built with all of your data and processes, making it easier to learn, while also making your employees less susceptible to change management problems.

5 TRAINING (2-3 MONTHS)

The training process takes about 2-3 months to cover all of the processes. Make sure to do your homework so you are ready to go live on your new system.

6 GO-LIVE

Once you are ready to go live, we load in your opening balances, and contrary to popular belief, your business can go live whenever you are ready, there is no set time of the year. Our implementation specialists can have you live at any point in time throughout the year!

PREVIOUS MAXWELL CLIENT TESTIMONIALS

"With the test company, we were able try the software out and vetted a lot of the issues prior to going live without having to worry about the impact on our business. This was a really powerful tool and a huge advantage for us as we were able to really train and learn the software, which gave us a great deal of comfort knowing we would be ready once the we went live with Jonas."

-Scott Tracy, Owner,
Chiller Systems Service Inc.

"The trainers we had were extremely knowledgeable, and were very honest with us from the beginning. During the initial kick off, they really took the time to understand our business needs, which made the whole training process that much smoother."

-Patricia Hill, Project Coordinator,
Dorsett Technologies Inc.

THE JONAS ADVANTAGE

- A complete and detailed training experience from beginning to end.
- Highly experienced in-house, and never outsourced, implementation specialists.
- Consistent support throughout the initial training and implementation process.
- Assigned project manager to ensure the project plan stays on track.
- 24/7 emergency support for issues that require immediate attention.
- Customized software to meet the specific needs and requirements of your business.
- A truly integrated and automated construction software solution.
